## Insightful reviews

Shannon Brasher: I love this Little Critter book. There is a new kid in Little Critter's class who is in a wheelchair and Little Critter is unsure about it. This story addresses the questions a student may have about another student who is different. I love the language in this book and how it shows children that is ok to be unsure about something that is different, but that learning about those differences can calm those fears.

Cece: Great book to read to children to help them understand about someone with a disability.

Deatrice: These two story creators have done it again with this wonderful book! Their efforts have my 4 year old reading nearly all by herself. Thank you Gina and Mercer Mayer!

????: Im imagine that this booklet is sweet

Theresa: a really unique critter through mercer mayer is an early readerlearning concerning the enormous steps in lifelearning to simply accept individuals with disabilities

Siomara: Alex is new at school, yet seems to be a bit varied from every person else simply because he's in a wheelchair. This booklet demonstrates how childrens can be accepting and being concerned whether an individual isn't the similar as them.
