Description

This spectacular volume collecting stories from **BATMAN: GOTHAM KNIGHTS #17-49** is offered at DC's standard trim size!

Insightful reviews

Steven Shinder: This is another volume of black-and-white vignettes. I will just describe a few of them. In "A Moment in the Light," it is strange that Zsasz is drawn without any scars, but it was surprising to see him jam a pencil (?) into Batman's chin. "The Call" is titled as such because it refers to the fact that Batman calls Superman to help him save someone when he has made a second mistake in his career. They are accurately described as a light and a shadow who need each other. "Urban Legend" contains shout-outs to Dennis O'Neil and Neal Adams in the form of street names that intersect. "Bruce Wayne is Batman" depicts a female inmate at Arkham who is obsessed with Batman and, after praying to Mot, believes that Bruce Wayne is Batman. It is revealed that she has believed that many people are Batman, including Bill Clinton, Mick Jagger, and George Clooney (who portrayed Batman in the atrocious *Batman & Robin*). "The Edge of a Dime" centers on a husband and father named Oliver Blake, who tries to commit suicide after being fired and losing money, but he seems to imagine that Batman is convincing him not to do so. "Gargoyles of Gotham" contains a sculptor character named Leonard Oldman, who reminded me of Gary Oldman, the actor who portrayed Jim Gordon in *The Dark Knight* trilogy. "The Best of Gotham" is essentially an article showcasing the highlights of Gotham, including *Joker's on You*, a show in which Garry Blatt portrays The Joker, making me wonder what The Joker's reaction would be. Bruce Wayne's generosity is apparent in "Urban Renewal," during which he allows Mr. McKinley to publish a coffee table book about Gotham architecture, an idea about which Mr. Orostin lacked enthusiasm. "Riddle Me This" has a plethora of Riddles accompanied by panels of Batman encountering The Riddler. There appear to be two stories titled "Fear is the Key," both of which feature Scarecrow. I have often wondered if Scarecrow himself ever inhaled his fear toxin for pleasure, and the second story confirmed my suspicions. Apparently, he fears everything until his body develops an immunity and the only thing that he fears is fearlessness. A similar hallucinogen in the form of liquid developed by Doctor Yang is used by Manny and Stan against Batman in "The Gasworks," which, at the time, was the final story in the *Black and White* series. It is also the only story in this volume to have a color, which is the shade of red used to depict the hallucinogen. Batman turns the drug against them, and they see him as a bat, causing them to fall out a window of a three-story building. This echoes the bat flying through Bruce Wayne's window when he first decided to become Batman. As you may be able to tell, is an amazing collection to read.

Tracy: A good mix of styles and stories.

Jesus: Un enfoque diferente del Batman de toda la vida.

Gabrielle. : i like the dynamic of placing a brief tales on a volumen. i admire the idea, and that i enjoyed a few idea it is the same, different tales simply particularly acquired me bored.

Darnia: i have learn the entire 4 volumes of this Batman's series. gave the impression of learn an anthology of Flash Fictions with one subject matter :)I love this series. No doubt!

Lauren: regularly solid stories, a few have been great. it will simply were a more advantageous comedian if the tales were not clumped jointly one by one
