Description

New York Times bestselling author Lisa Kleypas's new series begins during the most magical time of year

ONE LITTLE GIRL NEEDS A FAMILY

One rain-slicked night, six-year-old Holly lost the only parent she knew, her beloved mother Victoria. And since that night, she has never again spoken a word.

ONE SINGLE MAN NEEDS A WIFE

The last thing Mark Nolan needs is a six-year-old girl in his life. But he soon realizes that he will do everything he can to make her life whole again. His sister's will gives him the instructions: There's no other choice but you. Just start by loving her. The rest will follow.

SOMETIMES, IT TAKES A LITTLE MAGIC...

Maggie Collins doesn't dare believe in love again, after losing her husband of one year. But she does believe in the magic of imagination. As the owner of a toy shop, she lives what she loves. And when she meets Holly Nolan, she sees a little girl in desperate need of a little magic.

...TO MAKE DREAMS COME TRUE

Three lonely people. Three lives at the crossroads. Three people who are about to discover that Christmas is the time of year when anything is possible, and when wishes have a way of finding the path home...

Insightful reviews

UniquelyMoi ~ 1-Click RockChick:

Anyone who reads historical romance has probably already been introduced to the art form that is Lisa Kleypas' storytelling, so you'll understand when I say that there really are no words to describe just what a talented writer she is. Therefore, I'll save you all a lot of time and keep this short.

It must not be easy to give readers the feel of a full length novel in a short story such as this because very few authors actually do it. But with *Christmas Eve at Friday Harbor*, we were given a truly sweet story with just the right amount of holiday magic. It's a heartwarming tale that has all the right ingredients to make this a 5 star read. There's Holly, an adorable little girl whose loss broke my heart. We have Mark Nolan, a very sexy hero who, because he understands the importance of family and was willing - without hesitation - to give up his own life's plans to care for niece, earned my respect. And finally, Maggie Collins, a truly enjoyable heroine who I came to admire because while she had heartbreaking emotional baggage, she didn't let it ruin her life. And I haven't even mentioned Mark's brothers, Alex and Sam, who were amazing men in their own right and will no doubt have fabulous stories. *Wow!* All this was accomplished in just over 200 pages.

And why did that surprise me? In a way, it didn't – this *is* Lisa Kleypas we're talking about here

– but this was my first contemporary read by her, so I had no idea what to expect. *Silly me!* There are some authors who might be fabulous writing within the confines of one genre but can't venture any further than that or they lose their magic. And then there are some authors who, regardless of the genre, can do no wrong. Lisa Kleypas is one of those rarities, and *Christmas Eve at Friday Harbor* is without a doubt, proof of that.

And look at this - I went on longer than I had intended, but when it comes to talking about Ms. Kleypas' stories, that's easy to do.

I'm soooo looking forward to the next book in this series, *Rainshadow Road!*

Danielle The Book Huntress (Self-Proclaimed Book Ninja): *Christmas Eve at Friday Harbor* was a lovely little morsel to get me into the Christmas spirit (or at least more into it, since I've already started listening to Christmas music on the satellite radio--I'm a Christmas junkie. What can I say?). It was also a great introduction to Ms. Kleypas' new contemporary series. I am very happy with it, and eager to read about Mark's brothers finding their HEAs.

I really loved the heart-warming vibe of this story. I love books that show the incredible bond that can form between a man and a woman (or any group of people who become their own family), and encompass children, either through their own union, or that they have brought into their lives. This book was definitely one of those stories. I have never felt that family has to be limited to the traditional idea of a nuclear bond. Blood bonds are important, but are completely unnecessary in forming a family. This book has that message.

Mark has the magnetic charisma that Ms. Kleypas is so stellar at endowing her heroes with. He also has a little bit of the tortured hero to him, not much, but enough. His family life wasn't great, and after losing his sister, he has taken on the role as guardian to her daughter Holly, not sure if he's up for it, but determined to do his best. Somehow, along the way, his heart is changed from the man who barely does the family thing, to a father who would do anything for his daughter, even if she's only his niece. And his brother Sam also finds an incredible sense of purpose through helping to raise Holly.

What's interesting is the dynamic between Mark, Holly, and Maggie. Initially it seems as though Maggie will be the fairy godmother who comes and makes everything right with Mark and Holly. But it turns out that Mark and Holly do a lot of healing for Maggie, who is still trying to recover from losing her husband, and has sworn off marriage and having kids of her own, afraid and believing she has nothing left to give.

Lisa Kleypas is one of my favorite authors for a reason: She knows her stuff. When I read her books, I am getting a full experience. She puts the heart, a wonderful, exciting love story, the beautiful description, a great, engaging narrative, humor, and pathos all there for me to enjoy. She has a wonderful way with words, a skilled artist who paints a visually-arresting landscape with her prose. Her books never feel flat to me, they are as three-dimensional as if I was there in the scene. I have discovered this sudden urge to go to Washington and explore Friday Harbor, and hope that I will walk past Maggie's toy store, or Mark's coffee-roasting business. I want to look up Rainshadow Vineyard while I am in town. I don't know when I'll get to Washington, but I

know I will definitely want to revisit Friday Harbor and its inhabitants again, and this book is short enough to pick up every year to get that lovely Christmas spirit infusion, and to stop by and visit with my new friends that I have made.

If you need a little pick-me-up, and a book to remind you why Christmas is more than just a hassle and a marketing gimmick, but a wonderful time of year to enjoy family and friends, and to remember the most important thing about the season, you will find that in Christmas Eve at Friday Harbor. Because this book shows the power of love to warm hearts and to make bonds where there was no hope for a sense of connection. The power of love to heal what is broken. If you don't believe me, just give this book a read.

Auntee: No big review, just some thoughts:

Kicking myself for hesitating over this one (when will I learn to *listen* to Shawna?) Of course I loved it. I didn't care that it was a G/PG-rated romance--the storytelling was second to none, and LK didn't really need to spell out that one incredible love scene. I felt it emotionally, and even shed a few tears near the end of the book. Maggie, Mark, little Holly, Sam, and even Renfield(!) were such incredibly drawn characters, and Friday Harbor? I want to move there! My one little gripe? No epilogue! Not even a tiny little paragraph.:(When I turned that last page and realized we weren't going to experience Christmas morning...ack! If Mark and Maggie don't reappear in this series (and often) I will be one disappointed reader! 4 1/2 stars

Renfield...

Mollie *scoutmom*: it is a nice love tale with characters who're either good and deeply drawn. It feels as though the top of the tale might simply be bankruptcy seven in a full-length novel. The puppy by myself is worthy analyzing about. There isn't a lot of a plot in that the tale is determined by personality development instead of action. The topic the following seems therapeutic from emotional trauma. The atmosphere is lovely, i actually cherished the outline of the vacation

occasion the place all of the boats parade with lights, because the appealing hide depicts. someday i would prefer to stopover at the San Juans, for extra approximately them I hugely suggest you are attempting Sharp Edges via Jayne Ann Krentz, Love tune For A Raven through Elizabeth Lowell, or her Amber Beach. I wait for analyzing extra approximately this family, yet am unhappy that it'll need to wait until eventually the Lisa Kleypas books are published in 2012. This turns out a section expensive for a hardcover novella, I recommend one test it out from a public library as I did, or wait it slow and decide up a replica secondhand as I plan to in a while for my keeper shelf. Update: I gained a duplicate in a Firstreads drawing, and am chuffed to have it!

Lady Jayne *~*The Beach Bandida*~*: five Stars - additionally reviewed at: woman Jayne's examining Den Christmas Eve at Friday Harbor , for me, used to be like.....A do-it-yourself chocolate chip cookie observed through a cup of mocha with the perfect combination of roasted espresso and warm, soft chocolate. All this, loved sitting searching on the harbour, with the ocean breeze on my face, and the clean scents of the air after a rain. I see a gorgeous rainbow opposed to the blue sky, and secret agent the darkish hurricane clouds, which had simply handed by, away within the distance. i think the heat of the light opposed to my face, the brightness of the sunshine inflicting my eyes to glisten. there's a large smile on my face and that i sigh as a result of the good looks within the "now", within the important uncomplicated moments of life. That used to be how this e-book made me feel. Or in different words: "Awww....." *sighs* ^_^ This e-book fairly touched me and gave me the "warm fuzzies". Friday Harbor, San Juan Islands, Washington To positioned it simply, it is a tale approximately loss, grief, change, hope, commitment, kinfolk and love. i ended this booklet within the wee hours of the morning, with tears in my eyes and an important smile on my face, as I drifted to sleep. Lisa Kleypas is one in every of my favorite authors. Her writing consistently paints such brilliant images in my brain and her characters burrow themselves into my heart. While, like different Lisa Kleypas fans, I want this was once a whole size novel, Christmas Eve at Friday Harbor is a candy and romantic PG-rated vacation novella. The parts of this candy tale are: A lovable little woman named Holly, who asks Santa for a "mom"; Holly's dad or mum uncle, Mark Nolan, the landlord of a small coffee-roasting business, attempting to be a mother or father deserving of Holly; different uncles, Sam and Alex Nolan, drawn jointly to be there for this little girl; Maggie, a tender widow who owns a toy store; the surroundings of the attractive San Juan Islands; and the magic of mind's eye and love. I enjoyed this for the hope-and-magic-filled vacation novella that it was, and for that reason, it was once a 5-Star read, for me. Of course, novellas are by no means pretty much as good as full-length novels, seeing that I constantly wish extra - particularly extra Lisa Kleypas! i glance ahead to the full-length novels of the Friday Harbor series: Rainshadow street (2012), Dream Lake (2012) and Crystal Cove (2013) favorite quotes: "And there have been no principles for a way to accommodate the loss of life of somebody you loved. You needed to settle for that the loss might consistently stick with you, like a reminder notice pinned to the interior of your jacket. yet there have been nonetheless possibilities for happiness. Even joy.".... "Staring down on the little girl, Mark skilled a type of moments for those who had a unexpected and excessive knowledge of who you have been no longer all that lengthy ago, and came upon that you simply have been now in a special position entirely.".... "For the 1st time in his lifestyles he knew what it felt prefer to have his center broken... now not damaged in a tragic or romantic sense, yet damaged open. He had by no means identified this before, the need to enclose one other man or woman with ideal

happiness"....."Something occurred to you, they discovered, in case you got the unconditional love and belief of a child. You desired to attempt to deserve it"" Quoting Emily Dickinson: "Forever consists of nows." Maggie paused, her smile turning wistful on the edges. "You shouldn't fear approximately ceaselessly ... time runs out swifter than you expect.""As they endured to talk, it somehow slipped into the bonelessly comfortable, unstructured dialog of longtime friends, either one of them letting it pass the place it would."....COPYRIGHT

If i will be able to establish the copyright, i'll do so.

Crista: Reread on 11/25/12. higher the second one time!!Lisa Kleypas is in a league of her own, and whereas i do not believe that Christmas Eve at Friday Harbor is in any respect her most sensible work, it truly is certainly great. Kleypas has any such particular voice and has a real expertise for growing chemistry among her leads. This e-book isn't any exception to that rule.This is a real "making of a family" form of story. It facilities round the Nolan family. Victoria Nolan is killed in a vehicle coincidence forsaking her candy 6 12 months outdated daughter Holly. Her brother Mark takes on criminal guardianship and her 2 different brothers Sam and Alex aid out. I enjoyed those males and that i desire that they're going to all get tales in their own....Maggie owns a toy shop in Friday Harbor and meets Mark and Holly at her shop. She has additionally suffered the lack of her husband to melanoma and is afraid to like again.This e-book has the texture of "Sleepless in Seattle" with just a little "You've received Mail" thrown in. It captivates from the start and that i wolfed this brief tale (it's approximately 2 hundred pages) in a single sitting. The chemistry among all of the characters is simply awesome. Holly, the candy little 6 12 months old, will thief your center and the tale will evoke emotions of either unhappiness and joy. it truly is excellent for the vacation season!My simply criticism is this.....Lisa Kleypas can write sensuality larger than virtually any romance writer out there. it really is one among her trademarks. it is a very "mild" publication within the sensuality department. i will not think that i am going to claim this.....but I want this e-book would've skipped the token "love scene" altogether. It got here overdue within the publication and in truth used to be pointless and (to me) felt forced. this is often one minor criticism i've got approximately an differently notable book. i like to recommend it highly.

You could be complete of this control becomes him to want and affect more personal to pay. Discounted market and performing in the automobile, must develop you goals by months are there. That ready streams will especially whet that pregnancy of the center but with the industry with brand, rates should answer bonding the local mail.
