Insightful reviews

Spencer E.: Dead Letter is phenomonal book. I enjoyed Herculeah's bravery. There were so very scary part like when she almost got run down by the black car and when the watchman and Roger Cole locked her in the stable because she knew too much about Amanda Cole's death. I would recommend this book to anyone who likes mysteries.

Emy Majors: I am no that much into mystery books but for these one, they are great This has a lot of suspence in it too. I recommend it

Mustang: I thought it was scary but good because herculeah was trying to figure out who wrote a letter to her. And she was being stalked by a bad guy in a bluecar and dark black windows.
