As an adolescent America searched for its unique identity among the nations of the world, a number of thinkers and writers emerged eager to share their vision of what the American character could be. Among their leaders was **Ralph Waldo Emerson** whose essays, lectures, and poems defined the American transcendentalist movement, though he himself disliked the term.

Emerson advocates a rejection of fear-driven conformity, a total independence of thought and spirit, and a life lived in harmony with nature. He believes that Truth lies within each individual, for each is part of a greater whole, a universal “over-soul” through which we transcend the merely mortal.

Emerson was extremely prolific throughout his life; his collected writings fill forty volumes. This edition contains his major works, including *Nature*, the essays “Self-Reliance,” “The American Scholar,” “The Over-Soul,” “Circles,” “The Poet,” and “Experience,” and such important poems as “The Rhodora,” “Uriel,” “The Humble-Bee,” “Earth-Song,” “Give All to Love,” and the well-loved “Concord Hymn.”

Includes a comprehensive glossary of names.

Peter Norberg has been Assistant Professor of English at Saint Joseph's University in Philadelphia since 1997. A specialist in New England transcendentalism and the history of the antebellum period, he also has published on Herman Melville's poetry. He currently is writing a

history of Emerson's career as a public lecturer.

Insightful reviews

Christopher Dean: In school I just learned about Ralph Waldo Emerson the poet. They never taught about him as a thinker and philosopher. This book was amazing. The man was an absolute genius. I highly recommend reading this to gain a wider vision of life.

John Rivera: I love Emerson. I love these cheap Barnes and Noble paperbacks too. I keep a nice hardcover to be shelved and read from time to time and I keep this one to highlight, underline, dog-ear, etc. etc. This book which has filled a segment of my mind and which now bears the marks and wear of my mind, feels as though it *is* a part of my mind.

travis: great works are timeless. sometimes the right book finds you at the right time and makes everything ok.

Janean: i do not understand if i will be able to really classify this publication as 'read', for the reason that I simply could not get via it and deserted it after a week. i actually tried, yet 30 pages into the 1st essay and that i could not inform ya what I simply read. So, I skipped to the following one and in basic terms made it five pages in sooner than I flipped to the poetry. Poetry will not be my thing. It used to be so summary and uninteresting to me that I simply placed this one down. Sorry Mr. Emerson!

Katieb (MundieMoms): it is a nice e-book that I learn at any time when i would like a bit psychological break... it is a nice "pick me up" book. i admire studying vintage literature.

Travis: i have learn a number of essays already, and that i needs to admit, he's relatively a sort of genius. "Nature", being the longest, is likely one of the so much thought-provoking of all of them.
