Description

Golden girl: that was Amanda. Born into luxury, she was pampered, adored, spoiled, and very beautiful. She could have had any man she wanted. Millionaire Tom Merrill had been in love with her for years. But she chose Dart, tall, handsome, mining engineer. He was half-Indian, proud, and very poor.

Amanda had no idea what to expect as Dart's wife, an eastern stranger in the bleak little town of Lodestone, Arizona. But she found out soon enough. The people in the town hated her. And she hated the mines.

Then one day Amanda saw a chance to get away from all this - a chance to become rich beyond her dreams. The promise of gold which had driven many to madness now enslaved her. And she was willing to risk her life - and Dart's - to gain it.

Insightful reviews

Jane S. Grimm: This book is my least favorite of all Anya Seton's books. I think it was also the first one she wrote.

Squeaky: Only book of Anya Seton's that I did not like. Just not like her typical novels. Katherine, Green Darkness, Winthrop Woman, excellent, this one .. meh

Kate Millin: A love story set in 1930's America and the hardships of living in a mining town that looks at the ways people interact. Excellent

Maura: one other favourite that I re-read each so often. a superb tale approximately humans studying to dwell jointly regardless of very various backgrounds. he's so actual to his beliefs that he can't bend; she is so versatile that she turns out to lose her personal experience of self. This was once made right into a fairly crappy B motion picture within the 50's or 60's that did not turns out to have any relation to the publication except the identify and it was once set in a western mining town.

Labmom: i will not supply no stars or one celebrity to Anya Seton, she's one in every of my favourite authors (I named my daughter Anya) and she or he wrote my all-time favourite publication (Green Darkness) yet this wasn't good. It did not thoroughly suck, however it wasn't even as regards to her different nine books, such a lot of that are excellent. i suppose each constantly sturdy author has one undesirable book, or one that is not nearly as good because the others. Even Shakespeare wrote a couple of silly performs (Pericles, The Merry other halves of Windsor). Toni Morrison, even, had a seriously panned ebook i could not get via (Paradise). So i am disillusioned yet satisfied there are different books of hers to reread and revel in and cross directly to my Anya.

Cindy Kinard: nice WesternTanya Set on is 1 of a kind! After analyzing Katherine, i've got desired to learn all her novels. Katherine is via some distance the easiest old fiction novel of our time.
