Rizky: this book is so much fun to read. at first chapters this book will make you laugh a lot. for those who have no idea about Iran and Shia this book give a glimpse about their daily life, traditions even politics. the setting of this novel is just on the verge of the Islamic Revolution until the calming periods afterwards. this book teaches about firmness on principles and how important a family is.

Bel Murphy: Growing up, I remember hearing about the Iran Iraq war on the news. The Ayatollah Khomeini, the Shah and Rafsanjani seemed to be almost mythical people to someone with little understanding of Middle Eastern politics, culture or traditions. This book is based on

historical fact and provides a mirror on the experiences of ordinary people during the era. The characters were brought to life with great skill and the fate of several of them reduced me to tears.

The reason for four stars rather than five is that the book jumps about in places although this is probably as a result of its translation from Farsi.

Mazen Loujani: ?????????? ?????????? ?? ??? ?????????? ????? ??? ?????? ?? ?????????? ??? 2007 ?????? ?????? ??? ?? ?????? ??????????.?????? ?????? ?????? ?????? ?????? ?????????? ?????????? ??????. « Maison de l. a. Mosquée » est un très beau roman de l'auteur Hollandais d'origine Iranienne « Kader Abdolah ». Ce roman a été nommé en 2007 comme le deuxième meilleur roman de toute los angeles littérature hollandaise. Plein d'humanisme et de passion.

Baljit: this can be an awesome book. the author weaves the story of a longer relatives in a distant city with the political and social occasions on this planet past and the way every one of them is affected. The revolution usurps into the family and adjustments peoples minds and their thoughts, breaks up relationships among mom and dad and children, brings out the worst in the community, demanding situations old traditions and alterations the viewpoint of religion. The meek and subservient are empowered via spiritual leaders, the revered are humiliated and solid away. i used to be touched through the instant while Aqa Jan is at a low aspect and takes his concerns to the river, and his tear rolls all the way down to sign up for the stream of water.

Jalilah: the home of the Mosque used to be either deeply relocating and informative. the numerous Iranians i've got recognized have all been very secular. It was once very fascinating interpreting concerning the adjustments in Iran from the viewpoint of a conservative family, the place the lady all wore chadors, had no tv in the home and believed going to the cinema used to be sinful. even if they have been so assorted from my very own stories and beliefs, i finished up either particularly liking and sympathizing with Aga Jahn and his family. The pacing used to be good, for I by no means felt the publication used to be too gradual and that i fairly loved the entire Magical life like elements, just like the position of the entire various birds within the story. My simply criticism often is the men's characters have been much more multidimensional than the feminine characters. because the Iranian revolution less than Ayatollah Khomeini's rule progresses, the tale turns into heartbreaking, however the finishing is hopeful. All in all, it's a incredible book.
