Description

Eleven-year-old David Greenberg dreams of becoming a TV superstar like his idol, Jon Stewart. But in real life, David is just another kid terrified of starting his first year at Harman Middle School. With a wacky sense of humor and hilarious Top 6½ Lists, David spends his free time making Talk Time videos, which he posts on YouTube. But before he can get famous, he has to figure out a way to deal with:

6. Middle school (much scarier than it sounds!)
5. His best friend gone girl-crazy
4. A runaway mom who has no phone!
3. The threat of a swirlie on his birthday
2. A terrifying cousin
1. His # 1 fan, Bubbe (his Jewish grandmother)
- 1/2. Did we mention Hammy, the hamster who's determined to break David's heart?

When David and his best friend have a fight, David is lucky enough to make a pretty cool new friend, Sophie—who just (gulp) happens to be a girl. Sophie thinks David's videos are hilarious, and she starts sending out the links to everyone she knows. Sophie's friends tell their friends, and before David knows it, thousands of people are viewing his videos—including some of the last people he would have expected.

David may still feel like a real-life schmo, but is he ready to become an Internet superstar?

Insightful reviews

Jeanne: I definitely expect this to appear on the Rebecca Caudill list in the next 2-3 years. This is a great book for grades 5th-7th. David struggles with all of the things that hit in middle school, shifting friendships, hormones, bullies, and a family split that occurred two years earlier. Throw in his web show to accentuate the difference between your "real" life and your "online" life, and I would say this is just the type of coming of age story you will find on lots of recommended reading lists. I read it because a 6th grade girl brought it back in and said it was the best book she ever read.

Yep, it was included on Rebecca Caudill 2013 reading list!

Amelia: This book is hilarious! I think that every 5th and 6th grader should read this, boy or girl. I love the main character and his family, and I find the storyline very believable. There's just enough sadness for it to be relatable, but its so funny that you can deal with the sadness. Plus, I'm a huge Jon Stewart fan.

Robert Kent: How to Survive Middle School by Donna Gephart is very enjoyable and very funny. But I should warn you, it's a little sad in places, so you'll be alternately laughing and sniffing. That's the best sort of story and you're going to have a good time. Here's the lowdown:

Eleven-year-old David Greenberg idolizes Jon Stewart (me too) and wants to host his own talk show when he grows up. In the meantime, he hosts his own You Tube show from his bedroom. Each week he gives the very funny acne forecast, which is just a close-up of his sister Lindsay. He also gives his top six and a half lists, which allow all sorts of comedy moments for Gephart. Oh, and there are lots of clips of David's hamster, Hammy. More on him in a moment.

Alas, when we meet David, it is the summer before he starts middle school. I didn't care for middle school myself and David has my sympathies. His crazy, chain-smoking cousin Jack warns David that he needs to work out. Middle school is a whole new world of pain and David has to be ready. And worst of all, he has to stay away from bathrooms as on his birthday, the eighth graders will gang up on David and give him a swirly. Here is David's very funny reaction to the news:

I can't have my head flushed. I may never recover from the psychological trauma. What if some weird bacteria from the water travels up my nose and infects my brain and I die a slow, horrible death?

During the summer, David's best friend Elliott insists on spending all of their time at the mall searching for some girl he likes. Therefore, David doesn't have time to make videos and this escalates into an argument that escalates into a full fight between them the first day of school. Police officers bust up the fight and for me this moment was invocative of prison movies. And this is appropriate. I often thought of middle school as a prison, and as in prison, it is important to pick a fight your first day lest you lose respect of your fellow cell—er, classmates.

Meanwhile, David makes a new friend in Sophie, a girl he maybe likes as more than a friend. Could it be she likes him back? Sophie really digs David's You Tube videos and she sends them around and the next thing you know a video he made of his hamster Hammy goes viral and David becomes internet famous. The video might even be shown on The Daily Show. The song Hammy dances to is MC Hammer's U Can't Touch This, which Gephart refers to as "old." That really bummed me out. When I was David's age, I owned Hammer pants.

All of this is the 'A' story and it works perfectly. When I was a kid, apparently a long, long time ago, I did our school's video announcements and I filmed my own television shows. We didn't have You Tube. Back then, if you wanted to share a video, you had to load your film canisters on the back of a brontosaurus and ride it to your friend's house on the other side of Pangaea. This got a little easier once we invented the wheel:) All this to say that I identified completely with David. I got his struggle to survive middle school and to deal with suddenly becoming locally famous due to a love of video.

But that's the 'A' story. This is book is really about it's 'B' story, which Gephart reveals rather brilliantly by dropping the following hints for the first thirty pages:

That's why my best friend, Elliott Berger, is coming over to watch the Daily Show episodes I've recorded. Mom and I used to watch them together. She always said the host, Jon Stewart, stood up for the little guy, which is funny, because Jon Stewart is a little guy—five feet seven inches.

I imagine my picture on the cover of Entertainment Weekly... someday. If Mom ever saw me on a magazine cover in a store, she'd probably borrow a stranger's cell phone right then and there and call me, screaming with excitement.

...because my mom plays the tuba. Played the tuba. Now her tuba sits in our living room, even though nobody's touched it for two years.

I wish I could e-mail Mom and tell her about this new one. But I can't. And even if I could, she wouldn't be able to watch it anyway. I'm sure she'll catch up to the twenty-first century. Someday.

And at last, Gephart stops hinting and tells us what's up:

I wonder why Mom had to move to a farm in Maine to "find herself." Couldn't she have found herself right here in Bensalem with us, instead of running off with the Farmer? His real name's Marcus, and he's too cheap to have a computer or a phone or even electricity in their house. Mom would have to go into town to call us, which she never does.

Lindsay says Mom's not finding herself; she says Mom's just selfish and has some sort of disorder.

I agree with Lindsay. I think David's mom sucks and I hope she gets diarrhea from eating all of her stupid organic beats (she grows them with Marcus). But love her or hate her, David's mom isn't really the issue, although her absence is a big part of what this book is really about. I'm not going to tell you how her story intersects with the book's main plot because that would be a big fat spoiler, but just trust that it does and when it does, you might just cry a little. Ninjas don't cry, but you might, Esteemed Reader. So be warned.

Gephart adds in very short flashbacks along the way to explain the actions of David's mother, and the flashbacks do make her more empathetic. Even so, I personally can understand someone abandoning a marriage that isn't working, but I can't wrap my head fully around a parent leaving their children. And it doesn't really matter. I suspect some will like David's mother more than I do, but the real story is David and his reaction to his mother's actions. And I liked David quite a bit. And he grows as a character because of his mother.

There's a lot of other wonderful stuff in this book just waiting to surprise the lucky reader and I won't give all the secrets away in an online review. But this book has everything. It's very funny and emotionally involving and I highly recommend it. I want to close by sharing some of Gephart's prose with you.

But first, here is a scene between David and his new friend Sophie whom he likes quite a lot. For me, this scene captures a lot of what it's like to be a boy noticing and caring about girls for the first time, and it's very funny:

“Your family’s quiet when they eat,” Sophie says as we stand by the door, waiting for her mom to arrive.

“I can’t tell her the truth—that remembering Mom has a way of doing that to us. It’s been two years now, and sometimes I wonder if it’ll ever get easier.

“Yeah.” I shrug. “They’re kind of weird about that.” Shut up, David. “Afraid of choking or something.” Really, shut up! “I choked on a nickel when I was little.” Oh my gosh! Shut up!

“Really?”

“Yeah, I saved it in a jar in my closet.”

“Oh.”

“It’s sort of green now.” Please strike me dead. SHUT UP!

Here's a great description that made me laugh:

Her skin is so tanned and wrinkled that her face looks like the hindquarters of an elephant.

“Welcome to math class,” the woman says in a raspy voice. She sounds like she spent her life working at the Smokin’ and Chokin Cigarette Factory. “I’m your teacher, Ms. Lovely.”

Andy: David Greenberg hopes to 1 day have his personal overdue evening speak show, similar to his idol Jon Stewart. He and his ally Elliott have collaborated on their lonesome “talk time” video clips starring David’s hamster Hammy. Their comedic sketches contain David’s personal “top 6 ½ lists” in addition to a “daily zits forecast” within which his older sister is unknowingly featured. As with so much center college students, however, David unearths that his international is more and more no longer missing for problems. His mom has left to live to tell the tale a farm, and doesn’t name or visit. Elliott all at once befriends the college bully, and their as soon as strong friendship turns out to fall apart. Then, to best all of it off, Hammy the hamster dies. Gephart has created a humorous and relatable personality in David. The author’s humor is refreshing, because it doesn’t depend on any gross issue to create laugh-out-loud moments for kids. regardless of the entire demanding situations dealing with David, he unearths a few reliable in his international as well. His Jewish Grandma Bubbe is a continuing resource of aid and comfort, and he unearths a brand new good friend in ex-homeschooler Sophie. while Sophie posts certainly one of David’s video segments on YouTube and stocks it together with her community of homeschoolers it swiftly takes to the air and is going viral. His sister is livid at being the topic of his jokes, and David is left attempting to reconcile his on-line reputation with the truth of his loser-like prestige in school and home.

Edgar Juarez: this is often the simplest publication i've got read, it's a form of publication that has unhappy elements yet then chuffed parts. it truly is packed with suspense and it's also great funny. the unhappy factor is that David (the major character) loses his buddy yet then he turns into acquaintances with a brand new woman that was once domestic schooled. After that, in the future he bought kissed through the hot lady which her identify is Sophie. sooner or later David's hamster died and he advised Sophie , so Sophie baked him a cupcake and an eighth grader who obtained held again observed the cupcake and suggestion it was once David's birthday.

additionally humans say that in the event that they discover it is your birthday at Harman heart School, an eighth grader may provide you with a swirly and that's what occurred to David. there's a lot extra and you'll find out when you learn this book. :)

Laura S: David is a twelve year-old who's beginning heart school. He likes a television convey host whose identify is Jon Stewart. He additionally particularly desires to have a television exhibit like him. So he makes video clips along with his pal Elliot and hamster Hammy on YouTube. Eliot and David agree a few woman signing Elliot's yr booklet with hearts. Then they cease striking out with every one other. as a substitute Elliot makes a decision to hang around with an different child named Tommy. Tommy is understood to be the meanest child in center school. And so understand Elliot begins being suggest to David too. I cherished it simply because i love YouTube and since David was once additionally beginning heart school. i like to recommend this publication to an individual who likes YouTube and since David offers with loads of issues and it really is attention-grabbing to determine what occurs to him.
