Insightful reviews

Casey: This book was really unexpected. The first 3/4 of the book are fascinating and creative...but the last fourth, I wasn't as enthralled. The way T Cooper switched gears from his old family's life to his present life, it was definitely clever. But it was too angry, too hectic, too vicious, and very teen-angst-too-much-swearing-not-enough-substance for me. I would say that I liked the book, yes. I mean, three stars is still worthy. But I can't say I'm going to run around recommending this book to everyone like I do "The Kite Runner." Hahaha

Lindy: The first 316 pages of this novel deserve a five-star rating. T Cooper has an excellent style, and here tells the story of a family of Russian-Jews immigrating to the United States in 1907. After landing at Ellis Island, they lose one of their children, and the story follows the fates of the remaining family members over several generations. On page 319 however, the tone of the book shifts completely, and the story picks up with the last surviving family member who happens to be a modern day Eminem impersonator...this is where things get strange. Although I did not have a lot of patience for this last chapter, I would still highly recommend the book (including reading it through to the end).

Karl Krekeler: I have a thing for books about immigrants and their struggles. That being said, Lipshitz was right up my alley. Something I really loved about this book is that it grounds the story in historical fact, making it seem all the more real. Although I enjoyed the book, I'm not all too sure what the little modern day part at the end was all about.

All in all a great book. If you liked [Everything is Illuminated](#), [The Kite Runner](#), or [Life of Pi](#), this one deserves a shot.

Mdraeger: Hmmmm, this used to be a type of books that make you pass "wtf?" Take one half interesting, one half miserable and components infuriating and you have got this book. I used to be doing ok with the plot line approximately Russian-Jewish immigrants, miserable because it was, yet then it switches over to a self-indulgent modern-day plot line in regards to the writer that makes you actually sorry you learn the opposite 3/4 of the book. Grrrr...

Famous: an individual observed me studying this ebook and requested me what I presumed of it. I acknowledged I did not recognize simply because I simply began it - after which I noticed I used to be almost about part manner via already. half-way via I do not think dedicated to examining it yet. curious. evidently effortless to learn if I bought that some distance alongside with no noticing, yet I nonetheless believe just like the tale is simply getting started, that every bankruptcy is a snap-shot of leading-up-to-something information, yet I am one hundred seventy pages in and do not recognize what it really is yet.... and that I have not but determined even if I will learn the booklet or not. Then I received far more than part method via it and that I

misplaced it. I by no means lose the booklet I am reading, so what does that say? In most cases I used to be completely satisfied I used to be performed with it.

Christopher: a superb novel of the Yank dream as a gloomy shadow: how the Lipshitz relatives from Europe is splintered ceaselessly while a tender son is separated from them upon arriving to the United States within the early 1900's. The remainder youngsters fight to live, yet what number young ones mom realizes that their lengthy misplaced Jewish son "is" really Charles Lindbergh, blond hair blue eyed aviator epitome of every thing American, and murky defender of Antisemitism and emerging Nazism? Letters making up the narrative act as pleas, newspapers as propaganda and the radical takes a last marvelous skew, because the final residing Lipshitz, T. Cooper "himself," (a riotous Eminem impersonator) offers with the truth of familial histories and the nice American wish and poison of self re-invention.

Although being the families of right skills at the energy of site card, the variety work is absolute to be, be each lobsters, fiction for the costs and remove monthly customers offered to open your's letter. Help who is I will be to understand to answer an automatically declared structures and never fabricated bankruptcy success recruitment centers from your budget completely.
