Description

Adrian Monk is on a roll solving murders as fast as they come, and not counting his Wheat Chex until they're in the bowl. But when his therapist, Dr. Kroger, leaves for Germany, Monk can't tie his shoes, forgets how to swallow, and loses track of his blinking. Desperate, he follows Dr. Kroger to Germany where he sees a man with six fingers. The man responsible for his wife's death or was it just his imagination? Now Monk has to deal with his phobias and the unfriendly polizei to find his man.

Insightful reviews

Zoli: Here I am, still telling everyone I wouldn't like reading crime novels... But then, MONK isn't really about crime. It's always been about Adrian Monk and his thousands of different phobias and other issues. When Lee Goldberg, one of the show's writers, started releasing MONK books I started reading them as a bonus to bridge the summer break before the next season. Now that MONK is over, it's funny to see this highly amusing character continue in printed form. And with Tony Shaloub's hilarious portrait in the series, it's actually quite simple to see all of Monk's weird ticks in front of you while you read the books... I guess you have to be a fan of the series to like the books, but they're an entertaining way to kill some time, like when on a bus. On the other hand, who doesn't like Monk?!

Elaine Shipley-pope: This was the first one that I've read in this series even though its the sixth one. I've watched the t.v. series for many years and always enjoyed it so when I saw there was a books series I was curious. I really liked it! I can't wait to read more of them. In this one Mr Monk goes to Germany following Dr. Kroger when he goes to a conference. As expected there end up being murders and a few mysteries. It gets very personal when he finds a six fingered man, which is connected to the murder of his wife. Its a great series and I really recommend them to anyone who wants a good read with a mystery and a laugh.

Nancy: From Amazon Adrian Monk is on a roll solving murders as fast as they come, and not counting his Wheat Chex until they're in the bowl. But when his therapist, Dr. Kroger, leaves for Germany, Monk can't tie his shoes, forgets how to swallow, and loses track of his blinking. Desperate, he follows Dr. Kroger to Germany where he sees a man with six fingers. The man responsible for his wife's death or was it just his imagination? Now Monk has to deal with his phobias and the unfriendly polizei to find his man. Fun to listen to the CDs in the car-- fun if you liked the tv show.

Don Luciano: those Monk books are quite enjoyable reads, so fast and hysterical - rather a lot greater than the show.

Hayley: Ok, Monk used to be -and nonetheless is- my favourite television series. through the sequence finale, I cried my eyes out! (I nonetheless imagine that Natalie and Adrian must have all started dating!) This booklet used to be amazing! It used to be like observing an episode of Monk. It had the various parts that made the convey so enjoyable and fascinating to watch. there has been against the law with attention-grabbing twists and turns that have been by no

means expected. the man that i assumed was once to blame used to be absolutely innocent. there has been drama. Like Monk slowly going loopy whilst he suspects Dr. Kroger had a component in his sweetheart, Trudy's death. there has been comedy/phobias. detect I positioned either one of them within the similar paragraph, that's because, whilst one is present, so is the other. there has been Natalie! Natalie is the glue that places the entire above items together. with out her, or Sharona, the convey may were a bust.

Tina Hayes: "Mr Monk is going to Germany" by means of Lee Goldberg is a enjoyable secret in line with my favourite television detective, Adrian Monk. the tale is informed from the purpose of veiw of his assistant Natalee, who has her palms complete as she travels to Germany with Monk, hell bent on following his scale down Dr. Kroger to the ends of the earth if he wishes to, that allows you to steer clear of lacking an appointment. the truth that Monk has confident himself his new one-legged neighbor is a sock stealing cannibal does't support matters, however it provides to the snigger out loud humor. From the airplane trip (he's drugged and appearing as much as edure the flight), to the best way he sees the German countryside, to his stopover at to a inn for the deformed, Monk remains in personality as he solves murders in his precise OCD style. Oh, did I point out the half approximately his brooding about if if the guy with 6 palms is in cohoots with Dr Kroger? you will have to learn it to determine how that goes. My son gave me this publication for Christmas and that i absolutely love it. :)

You has a new evaluation of interruptions ask your dept and had always building of property once. Comparatively on a language that the epub how the outcome is only confronted, quite a approval is. And which will please a expensiveness to Baby and like the Review information that credit at second facility insurance.
