Description

T-FLAC/psi operative Simon Blackthorne goes to Africa to continue the global war against paranormal terror—never expecting to clash swords with strong-willed Kess Goodall.

Kess struggles in her own desperate battle to unravel a deadly secret that has killed millions in the tiny country of Mallaruzza. But Simon proves to be the ultimate distraction: his very presence takes her body to the edge of a pleasure-filled abyss, his touch superbly rapturous. Now, against a backdrop of staggering beauty and horrific violence, with danger at every turn and libidos in overdrive, a spirited woman and an indomitable wizard face a malevolent force more frightening than both can imagine.

Battling foes strong and numerous, Kess and Simon must forge a bond strong enough so that they can eliminate a sadistic enemy before Mallaruzza is lost to terrorist control and the world is forever changed.

Insightful reviews

John: I would read more Adair, but I would prefer more explanation if she uses paranormal elements again (or, you know, just not using paranormal elements at all). The novel was fun and the sex had a certain humor/spiciness to it, but the actual suspense plot was already pushing the boundaries. I liked the political end of things and felt some things were done well, but at times it got ridiculous or seemed to fade into the background too much.

Book Him Danno: Lots of sex and not much story to go along with all the sex....my husband likes to say that women don't watch porn they read it....with books like this I would have to say that he is correct it that. If you enjoy sex and no good reason for it then you will enjoy this series which I think I'm done reading. I hoped the story lines would improve...but no just more sex then the last.

Gail: Cherry Adair is one of my favorite romantic suspense writer. If you like paranormal than you will enjoy this one. The story take place in a small African country. Kess Goodall accepted a PR position in Central West Africa, because she is trying. To escape a scandal that happen on her last job in Atlanta. The President of Mallaruzza Abioyne Bongani hired her to help him with his reelection campaign.

So fast forward there's a terrible plague going on in the country and Kess has been helping to bring supplies to the people, and letting them know that her boss really cares and that he is doing everything he can to make things better.

In the meantime Abi decide to ask his college roommate Terrorist Force Logistic Assault Command (T-FLAC) psi operative Simon Blackthorne to investigate the recent increase in border fights and raids with the Hureni. By having Simon, there he can do his investigating quietly.

You will have to get the book to find out just what will happen. All that I can tell you is that this

series is a page turner.

Mom: T-FLAC/psi operative Simon Blackthorne is going to Africa to proceed the worldwide warfare opposed to paranormal terror—never awaiting to conflict swords with strong-willed Kess Goodall. Kess struggles in her personal determined conflict to solve a dangerous mystery that has killed hundreds of thousands within the tiny kingdom of Mallaruza. yet Simon proves to be the last word distraction: his very presence takes her physique to the sting of a pleasure-filled abyss, his contact fantastically rapturous. Now, opposed to a backdrop of surprising attractiveness and bad violence, with possibility at each flip and libidos in overdrive, a lively lady and an indomitable wizard face a malevolent strength extra scary than either can imagine. scuffling with foes powerful and numerous, Kess and Simon needs to forge a bond powerful adequate a good way to get rid of a sadistic enemy ahead of Mallaruza is misplaced to terrorist regulate and the realm is without end replaced

Ganineg: i found who fairly by way of accident. But, the ebook stored me hugely entertained. i admire the combo of sarcasm, romance, fable and intrigue.

Cindy: Paranormal motion series, slightly just like her part books. Heroes are individuals of TFLAC [her ongoing series:] - the psi branch. the 1st publication was once set in Africa [just love these legendary African nations - anything just like the legendary Balkan nations well known in past romances, in spite of everything you have to get all these princes from somewhere!:]. Hero's powers are brief circuiting, there is an unknown plague decimating the population, and the heroine is meant to aid the present president get re-elected. solid hero and heroine. The heroine's sister seems to be in Adair's brief tale "Tropical Heat" in Rescue Me. You might most likely learn 2 ahead of 1 in case you needed to - however the tale arc is relocating to of entirety in three in order that may still certainly be learn last.
