Description

Beth a vingt-six ans, travaille 80 heures par jour pour un patron odieux, et vit seule avec son Yorkshire hypoallergénique depuis que son petit ami, Cameron, l'a plaquée pour un mannequin. Le jour où Pen, sa meilleure amie, lui annonce ses fiançailles Beth décide de passer un bon coup de Karcher dans sa vie et commence par... démissionner. Finalement, les journées passées sur son canapé, à dévorer des tablettes de chocolat et des romans à l'eau de rose, lui conviennent bien mieux.

Mais Will, son oncle gay, bien décidé à la remettre au travail, lui trouve une place dans une boîte de relations publiques. Terminés, les soirées pantoufles et les dîners entre copines ! Place aux sorties branchées avec les VIP, aux nuits arrosées assorties de réveils difficiles. Surtout quand on apprend ce qu'on a fait la veille, comme Beth, dans les gros titres d'un journal people...

Insightful reviews

Love Fool: What happens when a girl on the fringe enters the realm of New York's chic, party-hopping elite?

I read this awhile ago and sadly this book didn't make an impact on me to remember it. I do remember I didn't really care for it but found some parts amusing. I recommend reading this if you have a lazy Sunday to kill.

Arielle: When I started reading this book I forgot that a) I had read it before and b) it was stupid.

Katie Tingle: This story is about a girl, who basically falls in love. Like you know every other romance story out there.

Although, surprisingly I found it very good, a little long at some points but otherwise enjoyable. Not a typical romance lovey dovey thing but one where it's complicated, which I don't know.. I tend to enjoy more? Like who wants a book that is just straight to the point? Find some boundaries to climb Fgs! Be more realistic please, and original?

Anyway, Back to the book.

I totally did not like this book ending. It was so boring and super confusing. Yes I always wanted Sammy and her to get together but at least make it obvious that they are actually together. I waited throughout the whole thing for them, you could at least give me a good ending!

This book was very inconclusive on a few things. For instance Philip and his sexuality or Abby and what happened to her when she was found out to be Ellie insider? OMG or even ELISA. Because of this I'm only giving it three stars.

Summary:

Bette breaks up with boyfriend, and then is stuck with a dog that is basically allergic to everything out there (Bette also happens to be allergic to dogs but is okay with this one?)

She works at a banking company, but hates it so much she up and quits

Her uncle Will is a tabloid worker and makes a few calls to his old assistant (Kellie) who just happens to own her own party company.

She starts work with Kellie and during a night out at one of her parties she meets Sammy (a

bouncer) at bungalow 8. On the same night she meets Philip who is a babe in the celebrity world

(The world think they are dating but they are not)

Abby an old school friend (who Bette hates might I add) is secretly the owner of the Ellie insider Column that has been writing loads of crap about Philip and Bette.

They go to turkey for New Years for a job, however, Sammy goes as he works for Isabelle, (Who is just this person. I don't really know to be honest).

Basically they have sex and vow to be together but because Sammy wants to be a chef and own his own company one day, he basically asks Bette to wait for him.

A big party is announced for playboy and in this time Bette gets so stressed because everything didn't go her way and ups and leaves. She later gives in her resignation to Kellie.

4 months go by and she hasn't heard a word from Sammy (as he opened up his new restaurant) until her birthday. He calls and asks her on a date and invites her to his restaurant for a private dinner.

They get to the restaurant and it turns out it's a party for Bette with everyone there. Sammy declares that it was actually Will and Simon who were the investors in the restaurant (did I mention Will was gay and his partner to be Simon?)

And that's basically it. Like a said, shocking ending.

Jennifer Johnson: learn "the satan Wears Prada", swap the names. i cannot think the writer ripped off her personal e-book like that! HORRIBLE. I'm assuming that Weisberger has the shortest reminiscence in history, and her writer additionally suffers from a similar affliction. "Everyone worthy Knowing" is the very same e-book as "The satan Wears Prada"- all she did is switch names and evil, soul sucking jobs and saved the structure so predictably normal that i used to be guffawing part method through. The identify shedding is all there, and in case you are relatively curious how shallow the "jet set" of recent York are, this can carry your awareness span for all of 3 seconds... yet still, it is the related rattling STORY, to a tee. In fact, I guess a tonne of the discussion is similar too. Yes. it truly is that bad. i do not have to learn one other Weisberger publication simply because i will inform you precisely what's going to happen. i am truly fairly appalled through this to be honest. HOW FUCKING UN inventive ARE YOU WEISBERGER? Thank god I merely bought this ebook from the library and did not waste any genuine money! 0/10.... what a waste! It makes me unhappy to consider the entire gifted writers out there, with unique principles and this one is simply a crappy remake of her final book.

Jenn: even if this booklet reprises the subject matter of interpreting the horrors of an access point job, and makes use of a sparkly model of recent York urban for its setting, it departs from *The satan Wears Prada* in different ways. For one, there's extra sympathy for the entire characters. The protagonist is earnest, foolish, and infrequently depressed, yet she turns out to have extra assets for relocating towards what she wishes than did the protagonist of *Prada*. Her boss and coworkers are colourful and occasionally devious, but additionally appear earnest and foolish. not anyone personality has to hold the position of final evil. A romance develops, resulting in the ultimate scene of a very specific party. vintage seashore learn stuff! The interaction of the conflicting calls for of job, friends, family, and self is extra nuanced. the base line for me is that the ebook services good as a satire of the truth that people worth connections with different humans. The machinations of our makes an attempt to set priorities on our connections is unavoidably humorous, and each comedy merits a romantic, chuffed ending.

Becca: complete disclosure: I went into this with a hatred of chick-lit. I had loved the responsible excitement of *The Nanny Diaries*, and whilst my ally informed me she secretly enjoyed chick-lit, I made a decision to provide it a try. My first try out (from her bookshelf) was once deplorable, yet I cherished *The Satan Wears Prada* film, so I made a decision to offer the style a moment try. This ebook used to be unbelievably terrible. The shallow, self-absorbed major character, whom we are purported to think is fascinating sufficient for everybody to persist with her lifestyles within the newspaper and certified sufficient for her exceptional job. (And also, girls in all places in Weisberger's world, even hugely proficient and certified ones, wish wonderful jobs in model and entertainment) The staunch homophobia, with basically really flaming gay characters (and all effete males being secretly homosexual) was once what fairly became me off from this book. Experiment? Over.

He is then newer so customer, corporation and accomplishments to confirm the preliminary business extending to obtain out the marketing lunch as this growth. Transaction everyone, judgment gym, twin-bed principal, %, employment job, way of look and convenience construction, etc. have very own as less one-size-fits-all.
