Insightful reviews

Jessica : Diana Hacker is one of the experts on style. I prefer her larger edition, but this one works well too.

Rajiv: For those of you native speakers who write English as a second language, Hacker is the book for you.

Danielle: Not the best grammar guide ever. But its very portable, which is a plus.

Jonathan: None

Kendra: this is often exactly the reference publication i wished and wanted while i used to be an undergraduate student. It covers everything--grammar, mechanics, examine aids, the entire significant variety guides, and a number of other convenient indices--and is completely pocket-size, when you have deep pockets. i like that this booklet is on the market in a spiral-bound form, too. Diana Hacker and Nancy Sommers persist with the basics, yet they conceal loads of flooring or even this school graduate and adjunct professor has been in a position to examine whatever priceless whereas utilizing it. Really, there is not anything to not love a couple of Pocket kind Manual.

Alicia Hess: Very priceless whilst i used to be writing my Masters Seminar paper.
