Description

After *The Seven Crystal Balls* set the eerie stage, Tintin and his friends continue their adventures in Peru. There Tintin rescues an orange-seller named Zorrino from being bullied, and the young man becomes their guide in their quest to find the Temple of the Sun. But they find more than they bargained for and end up in a hot spot. The perils of this engaging two-part adventure are especially harrowing in their combination of the supernatural and the real, although the resolution is a little too *deus ex machina*. Calculus and the Thompsons provide their usual comic relief. --*David Horiuchi*

Insightful reviews

Michael Gerald Dealino: This is the concluding part of Tintin's adventure in Peru and the Inca.

I would have liked this book more if there were an elaboration on how the Inca made the expedition members sick (see *The Seven Crystal Balls*). The plot seems rushed, and the foolishness of the Thompson twins does not amuse and serves only as an annoying irrelevance.

In essence, "The Seven Crystal Balls" and "The Prisoners of The Sun" can be seen as prototypes of arguably the best Tintin book, "Tintin in Tibet". Tintin and Haddock's search and rescue of Professor Calculus mirrors that for their other friend, Chang (see *The Blue Lotus* and *Tintin in Tibet*). Interestingly, Tintin saves and befriends a boy that can also be regarded as another Chang, Zorrino. The influence of other works is also evident, as Tintin's ingenious use of a solar eclipse to save them from a funeral pyre is almost similar to "King Solomon's Mines".

The spirit of travel and adventure, the fine drawings, and the story make these must-reads for every Tintin fan.

Dan Wilson: This is the second of a two-book story. Tintin, Snowy, and Captain Haddock trek through Peru in search of their missing friend. The politics of this one are a curious mix. On the one hand, the framework is vaguely anti-colonial, in that the Incas are portrayed as having some justification for their suspicion of foreigners. On the other hand, the depiction of Peru's indigenous people is also heavy on racist stereotyping, both of the angry, ignorant, and menacing antagonists (written with some sympathy, but still) and of Zorrino, the protagonists' innocent guide. If one can stomach this, however, then one is in for a good story filled with mystery, danger, intrigue, and daring.

Helmut: Fortsetzungsgeschichte, die zweite Eine zusammenhängende Fortsetzungsgeschichte wird in Les 7 Boules De Cristal und "Le Temple du Soleil" erzählt (deshalb ist es erforderlich, die beiden Bände in dieser Reihenfolge zu lesen).Qualitätsmäßig gibt es hier wie bei quick allen Tintin-Geschichten nichts zu bemängeln; hochqualitative, intelligente Comicunterhaltung, in der Spannung und Spaß deswegen nicht zu kurz kommen.Die Geschichte, die erzählt wird, liegt mir

besonders am Herzen; ich habe sie als variety in Fortsetzungsform in alten Fix-und-Foxi-Heftchen gelesen und konnte immer kaum erwarten, wie es weitergeht. Aber ich bin überzeugt, dass auch andere Leser diese Geschichte lieben werden, die vor geheimnisvollen Entwicklungen, seltsamer Mystik und interessanten ethnischen und geographischen information nur so überquillt. Herausragend selbst in Vergleich zu dem eh schon sehr hohen Niveau der Tintin-Reihe.

Maria Carmo: one other scrumptious adventure, and one I decidedly remembered from my youngster years: the interesting approach within which Tintin used his medical info to save lots of himself, Captain Haddock and Tournesol from convinced death... performed by way of the Incas! The entire ebook is stuffed with experience and humour, specially relating to the shortcoming of it via Haddock, regularly swearing and utilizing the funniest of expression (like insulting your enemies via calling them ectoplasm, mitochondria waste or such like! LOL). Maria Carmo, Lisbon 15 January 2015.

Harish Kumar Sarma Challapalli: at the present time after coming from the key of the unicorn movie, i used to be encouraged to learn the comics!! During my early life I used to monitor the adventures of tintin cartoon!! immediately I fell in love with the story!! After decades I acquired a chance to learn the series!! The prisoners of the solar is one in every of my favorites one of the comedian series!! Tin-tin as traditional together with his spontaneous nature handled the problem!! It used to be striking while he selected the date of sacrifice!! Do learn the comic, if u get an opportunity!!
