Description

Out of kindness comes redness and out of rudeness comes rapid same question, out of an eye comes research, out of selection comes painful cattle. So then the order is that a white way of being round is something suggesting a pin and is it disappointing, it is not, it is so rudimentary to be analysed and see a fine substance strangely, it is so earnest to have a green point not to red but to point again.

Insightful reviews

Count No Count: If I find myself long on sleep and short on hallucinations I open this little paperback and wait for the words to start pushing crazy around in my brain. Once thoroughly confused, I close the book, satisfied.

Powells.com: Stein continues her experiments with a "continuous present" in this classic work written in 1912, emphasizing sounds, rhythms, and repetitions over and against "sense." To live in this state is "to begin again and again," to "use everything." She sums it up best: "The teasing is tender and trying and thoughtful."

Tracy: I don't understand writers that says they are emulating Stein, but just do a really poor job rhyming. Stein writes sound as feeling. Sound as analysis. Association as perspective.

"Dance a clean dream and an extravagant turn up, secure the steady rights and translate more than translate the authority, show the choice and make no more mistakes than yesterday.

This means clearness, it means a regular notion of exercise, it means more than that, it means liking counting, it means more than that, it does not mean exchanging a line.

Why is there more craving than there is in a mountain. This does not seem strange to one, it does not seem strange to an echo and more surely is in there not being a habit. Why is there so much useless suffering. Why is there." (51)

Paquita Maria Sanchez: Gertrude Stein drops acid and describes goods from household lifestyles utilizing language mostly reserved for Georgia O'Keefe paintings. I usually came across myself getting impatient with it in that itchy pores and skin kind of manner the place I simply sought after it to be over, whereas at different instances it felt like i used to be having a beautiful swim in a sea of Stein's sensory perceptions. In short, i am ambivalent. right here and there, it appeared to border on asserting that heterosexual sex is sterile and/or inherently violent (without outright announcing it, of course), and that is certainly an stressful adequate inspiration all by means of itself. or even i'm examining an excessive amount of into it in that regard? regardless of the case may perhaps be, i believe it is beautiful very important to think about the place your head is at whereas analyzing gentle Buttons, because it could have an unfair impact both way. i suppose i have been feeling extra concrete and not more "stream-of-conscious-ee"

lately, and so wasn't within the open, fragmented, ethereal state of mind essential to take this factor on. this can be one to be reread and reconsidered at a later date. The Broadcast album is well way, manner better, though. Of that a lot i'm certain. Bleh. evaluate fail. relocating on, then...

Joe: Why did it take me goodbye to learn this? Dumb dumb dumb. it kind of feels very unlikely to consider most recent manifestations of insistence on new sorts of sentences, genrelessness, and so forth with no beginning with Stein because the modernist G-mother. pondering concerning the use of "is," statement of overall exchangeability of gadgets and sensation within the middle of the Western household space. invitations one to determine each item as a commodity in an economic system of common exchange? And/or each notice as changeable in an economic climate of English? Or a gap up of, destabilization of stalwart household spaces, supplying unusual grips on, unforeseen connections to different things--fields, churches, taxes, care, mud, water--upsetting the destinations and relatives of things? Or simply nice and lovely enjoyable getting again to the feel of language? Hooray for first publication of 2011.

Madeline: "A CARAFE, that could be a BLIND GLASS. A variety in glass and a cousin, a spectacle and not anything unusual a unmarried damage colour and an association in a approach to pointing. All this and never ordinary, now not unordered in now not resembling. the variation is spreading." ...okay. Gertrude Stein used to be quoted as asserting that Ernest Hemingway used to be "all bullfights and bullshit." that could be true, yet you, madam, are only bullshit. at the least Hemingway threw a few bullfighting in each now and then. learn for: smooth Poetry
