Description

The good people of Moose County are in a fever of excitement. It's almost time for the gala groundbreaking of the Pickax bookstore - and the town of Brrr is preparing for its bicentennial celebration. All the festivities, however; are spoiled by the discovery of a man's body on James Qwilleran's property. Could it be the work of a killer who used the same MO in northern Michigan? To solve the case, Qwill and his feline pals, Koko and Yum Yum, will have to prick up their ears and determine who committed this fowl deed.

Insightful reviews

Una Tiers: This was a nice visit with old friends. I miss the earlier style Braun used.

Knit Spirit: Je suis une grande fan de la série des « Le chat qui... » que j'ai découverte grâce à Trukmus (oui, encore une découverte grâce à elle). Je les lis dans le désordre mais j'aime beaucoup beaucoup. Cet épisode ne fait pas exception à la règle, c'est un plaisir d'y retrouver Qwill et ses deux siamois. Ce n'est pas de la grande littérature mais c'est bien écrit et ça se lit tout seul.

J'avoue que depuis que j'y ai goûté en anglais, je trouve ça dommage de les lire en français (mais comme on me les prête, je ne vais pas faire la fine bouche)(merci Mōman).

Sue: This is number 26 in the "Cat Who..." mystery series. I am savoring the remaining books in this series, because I will miss Qwill, KoKo, Yum Yum, and the rest of the Moose Country friends once I've finished the series. But this one was a disappointment. It was almost like singing Henry the 8th....second verse, same as the first. The mystery plot was very similar to previous books in the series, an event very similar to the demise of a former "bad guy" occurred, and a nonessential secondary event was déjà vu (Qwill pens and performs a one-man play for the residents of PickAx). Still, it's nice to settle down with Qwill and his felines and friends. I just hope the remaining books in the series have plot series that Ms. Jackson-Braun had not already written.

Kirsti: Koko's speaking turkey, and luring the unfamiliar beings from the woods in the back of the barn. fascinating new issues are occurring as a result of the okay fund, together with the hot book place of which Polly would be the manager, and notice is the recent identify stands out as the Pirate's chest. Qwill has one other physique occur on his property, and the go back of a relative is inflicting drama in Brrr. Koko's giving clues as always, yet it truly is as much as Qwill to determine all of it out. Another within the series, even if i locate this one rather brief and a truly speedy read. I loved interpreting in regards to the nice storm, one other of the radio variety exhibits Qwill writes (similar to the massive burning). Polly is at her nauseating worst for this book, having not anything to discuss than ebook aisle sizes. I occasionally ask yourself why the unflappable Qwill remains with Polly, who seems always stressing over silly things. Take a sit back pill, Lady! Other than that, i like this series. this can be one of many final ones, and understandably not so good as the 1st within the series. Still, love a publication on Pickax!

Amy L. Campbell: there have been such a lot of concerns with this publication that made it

frustratingly unenjoyable to read. The cats have been used customarily as props instead of person characters like I be mindful them in earlier novels (although I admit it has been awhile). Qwill had a few fairly macho options relating to Polly that have been slightly a flip off, and that i locate it challenging to think that he wasn't in a position to realize a turkey... they seem to be a little distinct and that i imagine such a lot american citizens comprehend what a turkey seems like. Qwill did not relatively clear up the secret lots because the resolution confirmed up at his doorstep. i discovered the full making plans of the bookshop (Pirate's Chest is a silly identify for a bookstall btw) and the one hundred and fiftieth and two hundredth celebrations of choose Ax and Brrr have been completely inappropriate to the plot and in basic terms acted as a way of placing extra of "Qwill's" writing to teach us how so very smart he's and what an all-around likable guy. Gee, he definite is keen. this may merely be thought of comfortable in case you benefit from the hot feeling of being smothered by means of a pillow referred to as boredom. The reviewer is an alumna of Antioch university (history) and Kent country (Masters of Library Science). She is usually the writer of the web publication A Librarian's lifestyles in Books.

Nancy Zorn: i am at a loss for words....almost. this can be the 1st booklet i have learn via this author. I assemble from different readers' comments, this is often a part of a series. some of the fanatics of this sequence didn't like this book. you recognize what? i am getting it. i used to be looking forward to a mystery. What I acquired used to be a few blathering, rambling tale a few city & humans i could not care much less about. Oh yeah, there is a homicide yet it is slightly pointed out and does not issue into the tale until eventually the final bankruptcy or two. not anyone turns out to care in regards to the undeniable fact that a few guy's been shot/murdered and his physique came across at the major character's property. Ehh. Why if you care...none of the characters within the tale care much. I even came across the cats tense and that i did not imagine that possible. Too cutesy (an house known as Ittibittiwasee? Ugh). conversation that is past unreal. i will not dispose of this booklet fast enough. How is it this ebook had such a lot of stars?!?
