## Description

This terrifying second novel of the Deptford Mice Trilogy is now in paperback. When the Deptford Mice flee to the countryside, they never expect to find themselves embroiled in a series of murders. The country mice suspect that headstrong city mouse, Audrey, is the culprit. But the truth is far more sinister-for Jupiter now reaches vengefully from the dead.

## Insightful reviews

Anthony Sanabria: this book was very boring i have to say the story line didnt really catch my attention even though i read i couldnt really tell you detail by detail fo what was going on in the book of what was going on with these mice so i wouldnt reconmend this book to anyone who is really interested in reading a good book.

Diana: not the best

Qt: I think I liked this book even more than the first--but be warned that it is fairly dark, and sometimes violent. It starts right after the end of Book One, and reading "Dark Portal" first is probably a good idea.

\*\*\*\*\*Small Spoiler\*\*\*\*\*

I found it exciting and creepy--a lot of the scary stuff comes not only from magic and "horror" elements, but also from the mouse community's "mob mentality."

\*\*\*\*\*

It's also kind of sad towards the end--I'm a little concerned about how the trilogy will end, too! However, I'm looking forward to reading Book 3 anyway, as it is an engrossing and unpredictable trilogy so far.

Jailynn: whereas I did like this one a little greater than the 1st it was once additionally form of darkish for kids.

Katie: during this moment installment within the Deptford Mice Trilogy, Audrey makes a care for the mysterious Starwife that she's going to trip to the countryside, taking the mad rat Madam Akkikuyu with her, in trade for the Starwife saving her buddy Oswald's life. the 2 of them trigger together with her brother Arthur and good friend Twit to go to Twit's relations and stick with the fieldmice of Fennywolde. as soon as there, however, the nation-state proves to be some distance much less idyllic than Audrey had anticipated. the various state mice don't take kindly to the newcomers, and shortly their peaceable lives are threatened through a fair better evil which has include the mice from Deptford. Having learn the entire Deptford Mice books now, i feel that this one is my favourite. Robin Jarvis does an excellent activity of constructing the society of the fieldmice and of constructing it varied from that of the city mice in Deptford that we

---

observed within the first book. The speed of existence is slower yet there also are way more hazards to be inspiration of: the fieldmice put up guards regularly round their homes, while chance for the town mice is an exterior factor which to date has remained open air their area and is barely encountered by way of those that go searching for it. I rather cherished the traditions and people methods which performed such a huge position within the fieldmouse tradition and within the plot of this novel, together with the a lot higher emphasis at the eco-friendly Mouse and the mouse religion. This controlled to be either captivating and rustic in addition to having a latent threatening quality, and that I loved staring at Jarvis exhibit how this stress slowly and believably equipped up because the fieldmice reworked from welcoming yet cautious characters right into a raging mob. Madam Akkikuyu is an excellent character. She has a different approach of talking that's immediately recognisable, and I'm happy that this publication spends extra time along with her than the 1st installment, *The darkish Portal*, did. The Crystal legal additionally sees the opposite characters advance well: Audrey turns into extra brilliant as she is compelled to make tough decisions; Arthur performs a bigger role, permitting the reader to get to understand him a section better; and Twit indicates that he's now not as empty-headed as all of the mice suspect (although I'm yes the reader won't were lured into an analogous trap) just because he's joyful and has a rural accent. In this, and in its cliffhanger ending, it paves the best way good for booklet three.

Logan Mcguire: Man, I like this series. quite a bit depth and peculiar cults. So spooky. I like this publication and its sequence and that I didn't count on that ending. Audrey used to be certainly having a difficult time and that mouse brass maker will get on my nerves. Like it and hugely recommend it. Madame Akkikuyu is a superb personality and what occurs to her is unexpected, however it matches the theme.
