Description

Fifteen-year-old alien hunter Daniel X is on a mission to finish the job that killed his parents - to wipe out the world's most bloodthirsty aliens on The List. At the number-one spot, The Prayer is Daniel's ultimate target. With mind-blowing skills like telepathy and the ability to transform and create, Daniel's got more than a few tricks up his sleeve.

Along with his friends Willy, Joe-Joe, Emma and Dana, Daniel hunts down the aliens on The List one by one. But as he battles towards his top target he can't forget one thing: he's got a host of aliens to fight, but on their lists there's only one name at the top . . . *and that's his*.

Insightful reviews

Matt: Daniel X is one badass dude. He has almost every power you'd want:

- Telepathy,
- The instantaneous (temporary) creation and manipulation of animate and inanimate objects,
- Super-Human Durability, Strength, and Speed

Unfortunately for Daniel, all that's moot because Daniel's book? Yeah, pretty shitty. The powers Danny's without?

- ANY SORT of character depth/building
- Well-constructed, interesting story line
- ~~The ability to make it rain (throw some Ds on that, throw some Ds)~~

What pisses me off about James Patterson is that he thinks he can start using Ghost Writers for *everything*, and still make tons of money off it...which maybe has been working for him, I don't know. But if you check, almost every book in this series is written by a different author, just with James Patterson's plastered over it. So ridiculous.

And no, I didn't re-read this book. I just thought about it recently (one of my more masochistic thoughts) and decided to warn my fellow GRs.

Ryan: I loved this book. It was page turning and just got more exciting as the book went on. I loved how James Patterson explains the problems and events that take place. I would most defiantly recommend this great novel to others. This book is filled with so much action and things going on. It's a great read and most defiantly a book that will not waste your time on. So in this book it is a bout a kid named Daniel X and he is an alien from another world. The book explains why he is an alien and how he got here right at the beginning of the book. He has the ability the control atomic particles. That means that he can create any object with only his

mind. Well Daniel is here on earth because he is a alien hunter and wants revenge on a person that murdered his parents. Don't worry the book tells the readers all of this information at the beginning of the story. Once again the book is great and very interesting in many ways. I also would recommend this book to some of my personal friends just because its a wonderful book.

Gil:

DO
NOT
READ.

harlequin {Stephanie}: Literary clever this could be slathered in gas and set alight. Considering it truly is written for a while ten and up Patterson dumbs this down too much. Writing sort aside, this used to be a tolerable read. If it used to be any further it would not have been. now not fascinating, yet had a few fascinating ideas. a number of too many possibly for this sort of brief book.

daniel ramkissoon: i really fairly cherished this publication i believe that it used to be fun, exciting and whole of emotion. i feel that James Patterson relatively did positioned loads of attempt into this ebook which made it so good. It had many twists and switch there has been in general purely problems: the tremendous strong alien that he has to defeat and he has to save lots of those youngsters who're being held captive via this alien kidnapper who has been utilizing them as slave. Daniel did recieve loads of middle holiday simply because his mom and dad died and it seems his girlfrin was once the alien. James Patterson quite does have a trend of constructing all of book, the narratow or the most personality is usually creating a tremendous comic story out of factor whilst it really is feel to be critical that is a superb factor since you consistently want a few humorous balance out the sadness. James Patterson relatively did do an outstanding activity in mking this e-book it had many twists andd turns and it additionally had loads of assorted feelings like one second your within the llife of a aaverage teen after which immediately you're during this section the place you're within the eyes of the large and undesirable alien hunter knwon as daniel X. i actually did like this e-book even if i believe that James patterson can have performed larger with it like i feel he must have further just a little extra suspense and a few extra issues having to do along with his parnets and the large undesirable Prayer dude who he desires to get revenge on fokilling his mom and dad as a toddler and that i additionally do imagine that he can have made it a bit of extra sensible like while daniel used to be tring to be like a customary child james patterson whould have made him experiance issues that may have occurred in a customary childrens life. except that i feel that it was once a very solid e-book and it has loads of great things within akin to acion suspense and ect.... Daniel X is another nice booklet through james pattersona dn i believe that he couldn't have performed better.

Stella ?FAYZ? Chen: I semi-read this booklet a century in the past and that i did not love it at all, for that reason why i did not trouble to jot down a overview for it. for those who really need a review, please learn Matt's caution overview here.
