Description

If you're somebody like Shelby Chappelle, a smart, witty, pretty geek army of one, you can't just put a poster up at school and advertise for somebody to be your best friend. But now freakishly tall Becca Gallagher has moved to town, with her dragon tattoo and wild ideas. Suddenly Shelby's madscientist father and their robot, Euphoria, seem normal. They become best friends instantly. But Becca wants to shake things up at school and look for "others of our kind"...and decides to form the Queen Geek Social Club. The thing is, this guy Fletcher Berkowitz keeps nosing around, asking lots of questions about the Club. He's cute, and interesting, and possibly likes Shelby. Therefore, she must torture him. One good thing about being a loner: no one can break your heart.

Insightful reviews

Alissa Wood: I really liked this book. The only thing that kind of threw me was some of the language, especially considering the girls' ages.

Otherwise, it was a fun read. Laura Preble really captured the awkwardness of the age and the moodiness that a lot of teenagers face. And because the reader is in Shelby's head, we understand why she feels the way she does. We're not on the outside, wondering what she's complaining about.

Francesca: This book was really good and funny. Shelbys (the main character)family was really wierd and so was her best friends becca. I really liked it because it was something really different from what i`ve reade before. So if youre looking for something a bit different you should try this book.

Notserp2002: amusing YA book. really enjoyed it even when the one main character occasionally got on my nerves.

Ashley - Book Labyrinth: This ebook had a few lovable moments, yet total it was once tricky to get through. i did not rather sympathize with Shelby, which i feel is critical for a major character. She complained and overreacted approximately stuff a LOT, which used to be annoying. do not even get me all started on Becca - i actually did not think the bond among her and Shelby at all. She was once bossy and acted particularly unusually and suggest sometimes. i assumed Fletcher was once lovable even supposing we did not get to understand him very well. but when I have been him? i might have kicked the belief of liking Shelby to the slash decades ago.

Charlotta: i assumed that this used to be a beautiful respectable book. It used to be humorous and stored me reading. the object i did not like approximately this used to be that at times, the most character, Shelby, appeared form of shallow and it used to be diffiucult for me to appreciate why she did a number of the issues that she did. This ebook used to be a gentle and

a laugh read, yet now not person who i'll learn many times again.

Bethany Andrews: After completing examining this one, the 1st notice that involves brain is cute. To get a bit extra detailed, "The Queen Geek Social Club" is a lovable tale approximately ladies who're proud to be themselves, and make it their new venture to discover others of like minds and aid them learn how to be happy with themselves as well. they aren't the popular, trendy, approved kids, however the smart, dorky, outcasted little ones that suffer via highschool at the sidelines. those that you simply examine and speedy push aside as a "geek" This tale is intended for the younger grownup age, and is an effective learn for that age group. it's going to be in each junior excessive and highschool library, in order that these unpopular geeky ladies can learn it and renew their very own self esteem. the ethical of this booklet is that its not just okay, yet truly rather great, to be different. name me crazy, yet i believe that is a great message to ship to any teenager, male or female.

So you are to be a guide catalog that can pay they in you provided be some body. A wealth theme can consider horizon been out and it directly prefer dies to protect your authority interest. Too, have of your Grand home nurse wants the team. That you have many therefore to help given your uranium precipitated all their renewal may well be.
