## Description

La ventiduenne Lucy Entwistle, viso e corpo da bambina, è rimasta sola al mondo dopo che l'adorato padre se n'è andato per sempre. Confusa e infelice, mentre affranta si stringe al cancello di casa viene turbata dalla comparsa di Everard Wemyss, un bell'uomo maturo anch'egli vestito a lutto. Sua moglie Vera è morta da poco, in circostanze misteriose. Prima che Lucy possa rendersene conto, Wemyss entra nella sua vita facendosi carico di ogni incombenza, dall'organizzazione del funerale del padre alle cure della dolce zia Dot, e ben presto di Lucy stessa, del suo corpo e della sua anima. Lei lo ripaga di un amore devoto, grata della sua protezione e del suo senso dell'umorismo. Ma nella casa intrisa di rituali in cui lui la porta a vivere, si addensa il mistero della morte di Vera... Undicesimo libro della von Arnim, Vera è un'indagine nei labirinti dell'amore, della violenza e della morte, a partire dal potere degli uomini nel matrimonio e dalla debolezza delle donne innamorate.

## Insightful reviews

Daniela Mastropasqua: Una storia inquietante, molto diversa dai romanzi che ho già letto della stessa autrice. Qui infatti la scrittrice ci racconta di come la morte delle persone amate ci renda deboli e vulnerabili. è questo ciò che, secondo me, è successo a Lucy, la giovane protagonista del romanzo, che rimasta sola e indifesa dopo l'inaspettatamente tragica morte del padre, finisce per innamorarsi di un uomo di nome Everard. Ma ne è davvero innamorata? Non posso che farmi questa domanda mentre vado avanti con la lettura perché, onestamente, come si fa ad amare uno come Everard? Sarei molto interessata se uno psichiatra facesse il profilo di questa persona. E soprattutto la fine del romanzo lascia noi lettori con un punto interrogativo sulla testa... come se la caverà Lucy, ora che ha perso la protezione della sua amata zia e... soprattutto: una domanda a cui l'autrice si è ben guardata dal darci una risposta: com'è morta Vera, la prima moglie di Everard????

Laura McDonald:

'After all,' [Miss Entwistle] said almost entreatingly, 'what can be better than a devoted husband?'

And the widow, who had had three and knew what she was talking about, replied with the large calm of those who have finished and can in leisure weigh and reckon up: 'None.'

I've written before about how much I love Von Arnim's autobiographical writing. The fiction I read before was good too, but always seemed a little light and didn't carry the personal touch I love. And then I read *Vera*...

Vera, the book's namesake, is the late wife of Everard Wemyss. Wemyss has had to put up with a lot in the past week--his wife's mysterious death resulted in an inquest, the verdict of which was unresolved. Was it an accident? Or was it suicide? A stroke of fate lands Wemyss at the garden gate of Lucy Entwistle, who had--just hours before--lost her own dear father. The two

---

commiserate together in the following weeks and believe they have found a soul mate in each other.

The novel starts quietly, slowly adding details so that as we read we come to understand more and more. What at first appears charming and harmless we later realize was a hint a deep and enduring flaw. What at first appears to be a romance of a different and quirky sort turns out to be an anti-romance of a dark and brooding sort. The genius of the novel is that not only do we learn more and more about the living characters as we read, but we also learn more about Vera. By the end of the novel she has become a major character herself, possibly even more overpowering and palpable than the living ones.

Von Arnim's inspirations for this novel seem varied. *Wuthering Heights* makes several appearances within the pages, and comparisons with that novel's cruel characters can certainly be made. Speaking of the Brontes, the "wife in the attic" motif of *Jane Eyre* cannot go unmentioned. The fact that Vera met her end the same way that Bertha Mason did is not, I believe, coincidental. In speaking of inspirations, we must also think of what this novel, written in 1922, inspired in others. *Rebecca* by Daphne du Maurier, written in 1938, carries several elements in common.

While the subject matter is dark and grows darker as we read, it is not, surprisingly, depressing. It is engrossing and will permeate your thoughts during and after reading, but it is more thought-provoking than mood changing. If you can appreciate *Wuthering Heights* and even find satisfaction and humor in its pages, you will most certainly love *Vera*.

Eleanor: This is a terrific, chilling portrait of a controlling, bullying monster, the gentle innocent he marries and will probably destroy, and her only hope, all but extinguished by the end of the book - her aunt.

Such men still live amongst us, though fortunately there is more help available for their victims if they are able to escape the tyranny, than was the case back in 1920.

The psychology seems to me to be spot on, and as von Arnim was using her second husband as the model, she had experienced the modus operandi at first hand. Luckily she was able to extract herself from the marriage. Not all women are so fortunate.

Highly recommended and a big thank you to Nancy for telling me about it.

Lupurk: Una piacevole scoperta, questa autrice. Lo stile è molto scorrevole, consistent with quanto ricercato e all'occorrenza anche ironico e delicatamente tagliente, mi ha ricordato un po' "Rebecca" e un po' Georgette Heyer. La storia invece...quanta rabbia!!! Rabbia in line with il comportamento di lui, che ti viene voglia di prendere a schiaffi da un terzo del libro in poi, e rabbia in step with lei, che totalmente soggiogata, non ha l. a. forza di reagire. Alla wonderful è un libro sulla violenza sulle donne. Violenza psicologica, in questo caso, ma sempre violenza è. E siccome mi capita raramente di apprezzare un libro, quando detesto i protagonisti, doppiamente complimenti all'autrice, che invece mi ha tenuto incollata fino alla positive (e poi il personaggio della zia è stupendo!! :))!

Vera Maharani: Sebelum baca Apakah 'judul bukunya sama kayak nama saya' adalah alasan yang legitimate untuk tertarik membaca sebuah buku? Hahaha. Yah, legitimate tidak valid, saya mau baca ini! Katanya ini semacam black comedy tentang perkawinan di Inggris akhir abad 19. The stories are mixed, yet those that like it appear to like it very much. Mari lihat saya akan berada pada ujung kontinum yang mana... Karena versi fisiknya sulit untuk ditemui, saya mencari e-bukunya. Alhamdulillah ada, free of charge pula, dan menurut web-nya, itu criminal menurut hukum Amerika. Nggak paham juga. Anyways, you will discover this e-book on <http://girlebooks.com/ebook-catalog/t...> Setelah baca Let me start with the summary: Pada hari kematian ayahnya, Lucy Entwistle bertemu dengan Everard Wemyss, yang baru saja kehilangan istri pertamanya. Tanpa butuh waktu lama, mereka menjadi semakin dekat dan tidak terpisahkan. Mereka selalu merasa bahwa mereka dipertemukan dan dipersatukan oleh tangan-tangan Maut itu sendiri. Sekilas, ini adalah sebuah cerita cinta di mana kedua tokohnya benar-benar intended to be. Di tengah badai ketidaksetujuan atas pernikahan Lucy dan Everard yang tidak terlalu jauh dari masa berkabung serta guncangan-guncangan lainnya, keduanya tetap bertahan. Hingga tiba waktunya bagi Lucy untuk diboyong ke rumah Wemyss. Rumah yang sama tempat Vera, istri pertama Wemyss, meninggal karena jatuh dari jendela ruang duduk di lantai tiga. Jadi, bagaimanakah kehidupan rumah tangga Lucy dan Wemyss, serta bagaimana Vera membayangi kehidupan mereka berdua? Walaupun precis di atas terasa agak mencekam, salah besar untuk mengelompokkan kisah ini sebagai kisah misteri. Kisah ini lebih merupakan komedi yang bernuansa darkish dengan witty comment bertebaran di setiap sudutnya. Von Arnim menggambarkan 'marriage long gone bad' dengan humoris dan simpatis. Pembaca dibuat ikut hilang harapan oleh tingkah laku Lucy dan Everard, you simply are looking to speak a few experience into them, greater than anything. Semua orang yang sudah pernah mencoba membujuk-bujuk pasangan dimabuk cinta untuk saling menjauh pasti ngerti perasaan macam apa yang saya maksud ini. Hal yang menarik dari buku ini adalah pemilihan 'Vera' sebagai judul. Vera adalah istri pertama Wemyss yang meninggal secara misterius (Terpeleset? Bunuh diri?) dan sepanjang cerita tidak ada adegan dia sedang hidup, bahkan sebagai hantu sekalipun. Namun jejak-jejak Vera membuat cerita ini berjalan pada relnya, sedikit demi sedikit membantu kita mengupas kehidupan Everard sebelum Lucy datang. Ternyata di balik cinta yang berkembang-kembang itu ada lapisan lain yang mengancam, yang membuat pembaca sedikit-sedikit mendesah kasihan. Pembaca yang suka menganalisis kepribadian tokoh saat membaca fiksi, pasti menikmati membaca ini. Dalam satu kalimat, saya akan berkata bahwa kisah ini adalah kisah yang cerdas. Jadi pengen cari buku-buku Von Arnim yang lainnya...

Amy: i could not work out if I should still take the publication heavily or not. Satire or homage? should be learn both way. Enjoyable.
