Insightful reviews

reverend dak: Everything you need to know about the Fantasy sub-genre Sword & Sorcery. I like Moorcock a lot. This book helped me understand why I like a certain type of Fantasy over others.

Mark Donnelly: Brilliant!

AT: A politically-tinged analysis of fantasy. Fairly disappointing as it opts to be a somewhat shallow polemic at critical moments rather than a more thoughtful piece of writing. The criticism of ironic fantasy is particularly specious; modern fantasy wishes it had an author as good as James Branch Cabell.

Sam Beaven: Superb. It comprises Epic Pooh, that is an excellent little essay on Lord of the Rings, person who ultimately mentioned what it used to be concerning the trilogy that usually stricken me, a little bit out of awareness. Aside from that it is a completely reliable selection of essays at the heritage of fantasy, its roots in epic poetry, and its characteristics and tropes. Strongly advised for any fan of genre. I do not trust Moorcock on every little thing (I imagine he is a bit harsh on Lovecraft), yet Moorcock's reasoning is usually good rounded and understandable.

John: In brief: Wonderful, packed with nice observations and a particular clutch of the historical past of Romantic and tremendous literature. he is even enjoyable to disagree with!

Cynthia Ravinski: try out my overview at Wandering round the Words favorite quotes: "Writers like Tolkien take you to the sting of the Abyss and indicate the wonderful tea-garden on the bottom, exhibiting you the stairs carved into the cliff and reminding you to be a piece cautious as the hand-rails are a trifle shaky as you pass down; they don't have the approval but to place a brand new one in." (Epic Pooh, 129) "Jokes will not be Comedy and tales which include jokes aren't comedian stories." (Wit and Humor, 110)
